10 Tips for Step 12 - Reading Genealogy Articles

Reading genealogy articles can be a valuable tool in your family history research. Here are some tips for getting the most out of this step:

1. ***Focus on articles relevant to your research:*** There is an overwhelming amount of genealogy articles available online, so it's important to narrow your search to articles that are relevant to your research.
2. ***Take notes:*** As you read genealogy articles, take notes on any new resources or techniques that you want to try in your own research.
3. ***Save articles for future reference:*** Save articles that you find particularly useful for future reference. You can bookmark them in your web browser or save them to a folder on your computer.
4. ***Consider the source:*** When reading genealogy articles, consider the source. Make sure that the article is written by a reputable genealogist or organization.
5. ***Look for case studies:*** Articles that include case studies or personal stories can be particularly helpful, as they provide insights into the research process.
6. ***Join online communities:*** Many genealogy articles include information about online communities or genealogy societies. Joining these groups can provide additional support and resources for your research.
7. ***Subscribe to genealogy magazines:*** Consider subscribing to a genealogy magazine, which can provide regular updates on new resources and techniques.
8. ***Use articles for inspiration:*** Genealogy articles can be a great source of inspiration for your research. They can introduce you to new resources or provide new research ideas.
9. ***Don't be afraid to ask for help:*** If you come across an article that raises questions or that you don't fully understand, don't be afraid to reach out to the author or to other genealogists for help.

10. **Stay open-minded:** Finally, when reading genealogy articles, stay open-minded. You never know when you might come across a new idea or technique that could revolutionize your research.
